

Deep Learning Exercise 6 Report

Kai Haase, 4118916

05.01.2018

2 SMAC

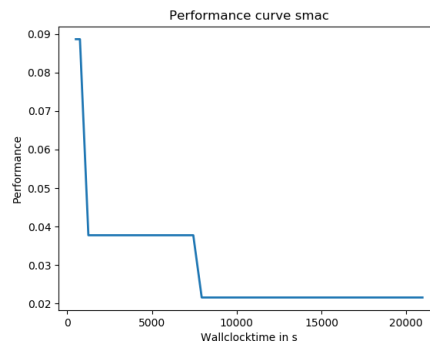

Figure 1: Validation error of incumbent on the y, estimated wall clock time on x-axis. Here, a early stop would be usefull since the values are not changing any more.

3 Hyperband

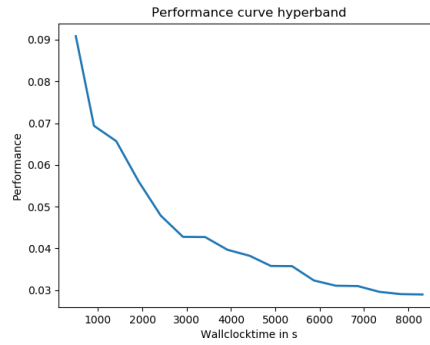

Figure 2: Here the performance increase more continuous, early stopping would not be as advisable as in the previous graph.
